International Constellations Journal

Edited by Barbara Morgan

Formerly known as the Systemic Solutions Bulletin and founded in 2000 by Barbara Stones and Jutta ten Herkel, The Knowing Field is an English language, independently produced publication dedicated to the dissemination of information, exchange of views, and experiences of Bert Hellinger's systemic approach. The Journal consists of feature articles, interviews, case studies, reports, letters, poems, book reviews, and discussion. Alongside its focus on family and organisational systems, it has an interest in larger systems and the effects of cultural influences and events on individuals and families. It also provides a forum for looking at how other approaches complement or contrast with the Hellinger work.

Issues 1 & 2 are now sold out and available only as computer printouts at £6. Please apply separately to find out contents.
